Hello Diane,

I'm hoping that Diverseworks will consider exhibiting a yet to be realized project idea of mine entitled *Inspired By*. The project proposal is simple... Over the course of 2010, I will create work inspired by art on display at the various galleries, museums, and art spaces in my hometown of Austin, TX. Your facility would then exhibit a selection of the work created in this manner along with an image/excerpt of the piece that inspired my work sometime in 2011. Let me know if your space would be interested in exhibiting the project... and thanks for your consideration!

Best,

Sean Ripple
